Working with communities to address the opioid crisis.

- ✧ SAMHSA's State Targeted Response Technical Assistance (STR-TA) grant created the *Opioid Response Network* to assist STR grantees, individuals and other organizations by providing the resources and technical assistance they need locally to address the opioid crisis .
- ✧ Technical assistance is available to support the evidence-based prevention, treatment, and recovery of opioid use disorders.

Working with communities to address the opioid crisis.

- ✧ The Opioid Response Network (ORN) provides local, experienced consultants in prevention, treatment and recovery to communities and organizations to help address this opioid crisis.
- ✧ The ORN accepts requests for education and training.
- ✧ Each state/territory has a designated team, led by a regional Technology Transfer Specialist (TTS), who is an expert in implementing evidence-based practices.

Substance Abuse and Mental Health Services Administration (SAMHSA)

Funding for this initiative was made possible (in part) by grant no. 6H79T1080816 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Approach: To build on existing efforts, enhance, refine and fill in gaps when needed while avoiding duplication and not “re-creating the wheel.”

Overall Mission

To provide training and technical assistance via local experts to enhance **prevention, treatment** (especially medication-assisted treatment like buprenorphine, naltrexone, and methadone), and **recovery** efforts across the country addressing state and local - specific needs.
